The Best Work.

The machine arrived in due time, and is giving first rate satisfaction. Almost the first work I did with it, was to stitch a nice cloak, for a lady who had hired twenty stitched on the different machines in the village, during the past autumn; and she decided that it was the best piece of work she had yet had done.—*W. One Way to Avoid Trouble.

E. Styles, of Rhinebeck, N. Y., writes: I have a "lock-stitch" machine, which I would like to send you, to dispose of for me. I don't want to sell it *here;* it would be giving me so much trouble." Of the Willcox & Gibbs Machine he says: "Without a single exception, every machine that I have sold, has given perfect satisfaction: and I have sold, four times as many of these machines, during the past year, as have been sold here of all other kinds."

A Charm.

The Rev. D. H. Rogan, of North Amherst, Mass., says "The machine I bought of you a few months since, had not been in the house an hour before the family were in love with it! And if that feeling has changed any since, it is only to become more intense. Its operation is so admirable, at all times, and on all kinds of work, that it is indeed—A CHARM."—*Letter to Willcox & Gibbs S. M. Co.*

Good Ones, No Doubt.

Mrs. L. M. Taylor, Utica, N. Y., says: "While many of my friends have double-thread machines, (good ones, no doubt,) which they have set aside, declaring the preparation of the work and adjustment of the machine more trouble than hand-sewing—my Willcox & Gibbs is always ready to perform its silent mission. There is no folding, no basting, no marking for seam, hem, fell, quilt, or tuck. This ingenious machine and its admirable attachments do all."

Incentive to Industry.

And while the novelty lasts, at least, a Willcox & Gibbs Sewing Machine is a great incentive to industry in the family. Restle s little girls delight in a kind of work s exceedingly like play; and boys even take to it, and think it "j lly good sport," to be able to manufacture their own shirts.—*Little Pilgrim.*

The "Irrepressible."

Gents:—On Monday last, the machine I purchased of you got thrown from a wagon—bott m up. I thought *then*, I should see a Willcox & Gibbs Machine "out of order." Well, the "table" was shattered, but the "irrepressible"—the machine itself—was all right yet! Enough of the table being left to apply the power, it went right to work and performed as well as ever. Please send me a new table-top.—*Geo. W. Leach, Binghamton, March* 7, 1867.

Alike on Both Sides.

All who are acquainted with double-thread Machines, know that they require a great amount of care and patience i the operator, to make the stitch alike on both sides of the fabric, *and not one person in ten is able to do this;* and when it is not done the work is *worthless.* But the *Willcox & Gibbs* stitch always makes an even seam.—*Letter of Mrs. Alter, Newburyport, Mass.*

A Beauty And A Charm.

"The unparalleled simpli ity and durability of its mechanism, and the absolute certainty of its operation, make it invaluable to every lady. The stitch is entirely unexceptionable, and perfectly satisfactory in all goods. The machine is a beauty and a charm." Thus writes the lady who introduced the *first* Willcox & Gibbs Sewing Machine in Chicago—seven years ago.

CORPS OF ABLE CORRESPONDENTS

From all parts of the country. It has sustained its place thus far as the BEST FAMILY NEWSPAPER, and no pains nor expense will be spared to keep it so.

THE ADVERTISING DEPARTMENT

The advertising community appreciate the advantages to be derived from patronizing an evening paper, especially one with

The Large and Permanent Circulation of the Journal.

It passes directly into the family circle, and is read when the busy scenes of the day are ended. The traveler on the evening train, the citizen and others returning home on the street cars, and thousands of buyers from news boys read it.

It is emphatically the

Best Advertising Medium

THAT CAN BE FOUND.

Our rates are more reasonable than any other medium, taking into account the large and constantly increasing circulation of our paper. Ours is a well tried and established institution, and not an experiment, and we assure our patrons that we will give them the full value of what we recieve.

WILLCOX & GIBBS SEWING MACHINE.

"Its Seam is stronger, and is less liable to rip in use or wear than the Lock Stitch."—"Judges Report" at the "Grand Trial." Send for the "Report" and samples of work containing both kinds of stitches, on the same piece of goods.

AGENTS WANTED.

WILLCOX & GIBBS SILENT FAMILY Sewing Machine

Twisted Loop Elastic Lock Stitch.

WILL STITCH, HEM, FELL, TUCK, CORD, BIND, Braid, Quilt and Embroider Beautifully. It will, with the FINEST needle and thread, run from perfect work on the finest Nainsook, over the heaviest beaver cloth and cowhide, with NO change of needle, thread or tension. It will use coarse cotton, linen, silk and twine. It runs easier, faster and stiller than any other machine. It forms a flat, even and elastic seam, differing from every other stitch, each loop being TWISTED by means of

THE "ROTATING HOOK,"

and drawing the twist into the goods, thus securely fastening every stitch, so that the seam will bear to be cut at frequent intervals, and in that case even, the seam is warranted **not to rip** in wear, and under all circumstances to "survive the washtub." Old, worn out family garments, bosoms, pants, dresses, &c., have been submitted to Committees at **FAIRS** where was the GREATEST COMPETITION, and to **this stitch** premiums have been awarded for its **Superiority, Durability, Elasticity** and **Beauty.**

A patented device prevents the possibility of the machine being run in the wrong direction, or the balance wheel ever wearing or touching the dress.

THE NEEDLE CANNOT BE SET WRONG,

Thus avoiding the great trouble of other machines.

NO BREAKING OF NEEDLES.

The blade of the needle is less than three-fourths of an inch long, and is straight.

The Hemmer and Feller can never be set wrong.

Any one may adjust them IN THE DARK. The hem may be of any width. No other hemmer or feller is like this. It turns the hem on the right or under side, as you want it.

It will not drop Stitches, as the needle is always set right, the blade short and straight, does not vibrate, like longer ones. It is run by steam at **3000** stitches per minute—other machines at only 400 to 1200, with safety. They are

Manufactured with Mathematical Precision.

Hence each part is interchangeable and can be readily replaced in case of accident. The machine cannot be adjusted, hnce will not get out of order. It will last a generation, if properly cared for. None who have used it can be persuaded to use any other.

The roundness, evenness, durability and beauty of its stitch

WERE NEVER EQUALED.

Its **Rapidity, Absolute Stillness, Ease of Motion,** narrowness and neatness of its HEM and FELL were **never approached** by any other machine. We can call in any boy or girl from the street, and with three minutes instruction they will set the needle, attach the Hemmer, or Feller, and do the work with entire success.

The PRESS universally pronounce this the **Best Family Sewing Machine in the World.** Whatever the merits of the other machines, it is no disparagement to say the Willcox & Gibbs is worth, for family use, double that of any other ever offered to the public.

It received the **Gold Medal** of the American Institute—the FIRST PREMIUM for

"THE BEST SEWING MACHINE,"

at the great New England Fair—the Vermont State Fair—the Pennsylvania State Fair—the Indiana State Fair—the Wisconsin State Fair—the Michigan State Fair—the Iowa State Fair—and at over **60** County Fairs throughout the West—making more First Premiums than were taken by all other Sewing Machines together in the same time.

IT IS NOW THE GREAT LEADING FAMILY SEWING MACHINE ALL OVER THE WORLD.

Price of Machines, with hemmer, feller, gauge, oil can, extra needles, full directions, &c., from $56 to $150.

Barnum's Self-Sewer for all Sewing Machines, Guides the work itself, avoiding the bent posture and strain on the eyes. Price **$1.50.** Large discount to Agents.

We take other machines in exchange. We sell OIL, COTTON, SILK, TWIST and NEEDLES for every kind of Sewing Machine.

Agents Wanted.—Terms to Agents, descriptive circular and specimens of work, sent free by mail, on receipt of stamp, or had of

IN USE FIVE YEARS AND NOT A DAY OUT OF ORDER IN THAT TIME.

Mr. Wm. A. West, of Dry Run, Pa., says: "We have had one of the WILLCOX & GIBBS SEWING MACHINES in use over five years and it has not been a day out of running order in that time. We would not exchange it with our neighbors for the Wheeler & Wilson or Grover & Baker, though I have nothing to say disparaging of them."

Unsealed circulars, not exceeding three in uumber shall pass at the single rate of two cents, and in that proportion for a greater number, adding one rate for three circulars or less number thereof, directed to one address.

THE CITY MAIL DELIVERY—On the 1st of September, 1864, the new system of the delivery and collection of letters, by means of regular carriers, and the institution of station boxes, was established in Chicago. Letters are now delivered in, and collected from, all parts of the city with great dispatch and security. No part of the city is left unvisited twice each day by the carriers. The carriers are carefully selected and are obliged to give good and sufficient bonds for the due performance of their duties.

The old branch post offices, as such, have been aboiished, except the west branch office transferred to Station B. To this the mails are sent out from the Central Office, and taken thence by the carriers. The letters arrive here just previous to each delivery, and are assorted to their proper district. They are then taken to the place of their respective addresses by the carriers. The latter make distribution in that portion of the city lying between Chicago avenue on the north, and Polk street on the south, and Halsted street on the west, and between Madison and Kinzie in the West Division, four times each day, at the hours of 7½ and 10 o'clock a. m., and 2¼ and 4½ o'clock p. m. In the more settled portion of the city outside of this district, the deliveries are made three times daily, at 8¼ and 10½ a. m., and 4 p. m. In the less thickly inhabited parts of the city, the daily deliveries are two—at 8½ a. m. and 4 p. m.

COLLECTION OF LETTERS—The new system of the collection of letters through deposit boxes by the carriers, obviates the necessity of repairing to the office by individuals at any distance therefrom. Boxes are fitted up at prominent points into which letters may be dropped and from which they are taken by the collectors four times daily. In the business portions of the city, these collections are made at 7:40 and 9.40 o'clock a. m., and at 2.30, 4.30, 6.30, and 7.30 p. m. Outside of the business section, the collections are made a little earlier, so that the letters may all reach the Central Office at the same time. The boxes are well and securely fastened with locks. They are generally placed at the most public and exposed point, so that any attempt to violate them will be easily noticed and prevented.

Suggestions.

To insure the safe delivery of letters, all persons living in the city, should be careful to notify their correspondents of their street and its number. The safest and surest way to do this, is to commence the date at the heading of the letter, with the street and number in which the writer lives, as thus:

"105 State street, Chicago,
May 1, 1866.

"Dear Sir," etc.,

And request their correspondents to address them accordingly. Even if the delivery were not an object, the rule is a good one, as it insures the return of letters to the sender, in cases where the party addressed fails to receive them. In the cases of very valuable letters, the senders would find it better, probably, to take them to the Central Office, and mail them directly there. Apart from this suggestion, there is little necessity now for persons to visit the post office either for the purpose of receiving or dispatching their correspondence.

EDWARDS' NEW CHICAGO DIRECTORY

STREET AND AVENUE GUIDE.

EXPLANATION.

Chicago is divided into Three Divisions—the North, South and West Sides, and known by the following abbreviations: N. D., S. D., W. D.

NUMBERING OF THE HOUSES.

In the South Divilion all streets running north and south are numbered from north to south; and all streets running east and west are numbered from east to west.

In the North Division all streets running from south to north are numbered from south to north; and all streets (except Rees and Gardner) running east and west are numbered from west to east. The streets in this Division which are continuations of the same streets in the South Division, are called North and are denoted by the prefix N. as Clark, in the South Division, and North Clark, in the North Division.

In the West Division, Randolph is made the dividing line, as far as Union Park; west of that, Park avenue divides north from south, and all streets running north and south are numbered from that line, as Clinton running south is numbered from north to south, and N. Clinton running north is numbered from south to north. All streets running east and west are numbered from east to west.

WHERE THE STREETS ARE NUMBERED.

To find the location of any given house, say 121 Cass street, on reference to this Directory (see Cass) you find that 115 Cass is on the corner of Erie, and 135 on the corner of Huron, consequently the number you seek is between those two streets, and on the right hand side of Cass street, as you proceed from its point of commencement.

WHERE THE STREETS ARE NOT NUMBERED.

To find the location of any given house, say Lincoln, between West Adams and West Jackson, on reference to this Directory you find that Lincoln runs from Park avenue south to Twenty-Second street, and that West Adams is the sixth intersecting street from its point of commencement.

ASTROLOGY

The Science and Influence of the

STARS AND PLANETS

REVEAL YOUR DESTINY!

YOUR DESTINY!!

WHAT IS IT?

Good or Evil? Rich or Poor?

Are you to rise to eminence, honor, wealth and power; or are you to sink into obscurity, oblivion, and be forever unknown? What are your future prospects in life?

TO BE, OR NOT TO BE?—That is the all-absorbing question. Who will solve it?

The never failing DR. RAPHAEL can solve it! ALL WHO ARE IN TROUBLE, all who have been unfortunate, all whose fond hopes have been disappointed, crushed and blasted, all who have been seduced by false promises and deceit, all who have been deceived and trifled with, all go to him for advice and get satisfaction. All who are in doubt of the affections of those they love, consult him to relieve and satisfy their minds, and to find out if their bright and warm hopes will be realized.

IN LOVE AFFAIRS HE NEVER FAILS.—He has the secret of winning the affections of the opposite sex. He guides the single to a wealthy and happy marriage, and makes the married happy. For those Ladies who have been seduced or otherwise injured, and whose misfortunes have brought on premature old age, which keeps them from getting married, he has simple, innocent and sure remedies, that will cure the injury so that no one can know it, and will restore the bloom and vigor of youth, remove all traces of their misfortune, and enable them to enter married life with confidence of health and happiness.—*Jour. of Health.*

To make the thing more sure, if you call personally, he will show you the likeness of your FUTURE HUSBAND OR WIFE! He will tell you their circumstances and their future prospects; and what is better still, he can tell you their thoughts, and what their real intentions are toward you. He can tell you if they will make you happy. He can foretell with the greatest certainty the results of all commercial and business transactions and speculations.

MORE GOOD NEWS!!—DR. RAPHAEL will cast your Horoscope or write your nativity. Every man, through the length and breadth of the land, who has bad luck, and who cannnt get on in the world, should be in possession of his Horoscope, and get DR. RAPHAEL'S WRITTEN OPINION OF HIS FUTURE PROSPECTS IN LIFE. It will guide him to Wealth, Eminence and Honor. Thousands of good men who were unfortunate and unsuccessful in their business—men who worked hard, and who struggled against adversity and misfortune the greater part of their lives, and who found the more they tried to get forward in the world the more things went against them—these men got DR. RAPHAEL'S opinion upon their future prospects in life. All who wisely followed DR. RAPHAEL'S advice are now RICH, HAPPY AND SUCCESSFUL in all their undertakings, while those who were blinded by prejudice and ignorance, neglecting his advice, are still laboring against adversity and poverty.

GOOD NEWS FOR THE AFFLICTED.—If you visit him personally he can tell the afflicted the cause of their disease and suffering. He can also tell whether they can be cured or not, thus saving the afflicted both trouble and expense.

His hours for seeing visitors are from 10 A. M. to 4 P. M. daily, (Sundays excepted,) at No. **213** East Madison Street, (up stairs,) between Wells and Franklin Streets, Chicago, Illinois. Consultation Fee, Two Dollars.

PERSONS AT A DISTANCE may communicate CONFIDENTIALLY by letter, if they enclose Two Dollars, for Consultation Fee, in each letter. All letters, communications and interviews are strictly private and confidential. No answer will be given to letters unless Two Dollars are enclosed as a Consultation Fee. By enclosing four 3 cent stamps, DR. RAPHAEL'S GUIDE TO HEALTH AND LONG LIFE will be sent to all who are in delicate health, and whose infirmities and impotence prevent them from getting married. One for the LADIES, and one for the GENTLEMEN—say which you want, or send six 3 cent stamps for the two books. His Circular about getting Rich and Eminent, winning the affections of the opposite sex, and ending with a speedy and happy marriage, will be sent gratis at the same time.

Address all letters as follows:

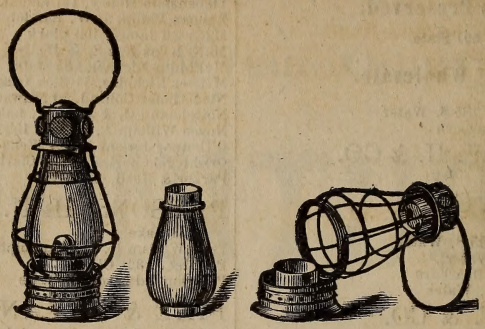
CHESTER'S

NEW



LANTERN,

The only Lantern invented that will consume the smoke of Kerosene without a Chimney, and particularly adapted for the use of Farmers, all out Offices, and Vessels of every decription.

Patented December 4th, 1866.

The great advantage they possess over OTHER LANTERNS, is in the fact that they

WILL BURN FOR WEEKS

WITHOUT THE NECESSITY OF CLEANING THE GLASS,

AND NO GALE OF WIND, HOWEVER SEVERE, CAN AFFECT THE

Steady and Brilliant Light of these Kerosene Lanterns.

They can be seen burning outside my Store at any time and in all weather, as the light is impervious to any storm either of WIND, RAIN or SLEET.

I ALSO MANUFACTURE

MARINE SIGNALS,
CANAL BOAT BOW LAMPS,
AND RAILROAD LANTERNS.

☞ ORDERS RESPECTFULLY SOLICITED AND PROMPTLY ATTENDED TO.

NORMAL WRITING INSTITUTE AT BRYANT & STRATTON'S COLLEGE.

READ AND LEARN THAT A PERFECT AND RADICAL CURE is warranted and guaranteed to all who are afflicted with weakness, debility, nervous complaints, melancholy thoughts, depression of spirits, distress and anguish of mind, loss of sleep, loss of memory, loss of energy and muscular power, puny growth, wasting away, and a want of confidence in themselves, fainting fits, convulsive tremblings, impotence and disgust of life. Hear what the medical press says:—Some physicians require to be told the nature of your disease—the English Botanic Physician does not if you visit him personally. His perfect knowledge of the human system enables him to describe the disease without any information from the patient, to explain its original cause, and to guarantee its cure. And, what is better still, he will honestly and frankly tell you whether you can be cured or not. This will satisfy your mind, and save you expense, time, trouble and disappointment. It will be the means of saving you many a dollar.

IT WILL SAVE YOUR HEALTH, and what is better than all, IT WILL SAVE YOUR LIFE from being shortened by wrong treatment. The Botanic Remedies of DR. RAPHAEL, the English Botanic Physician, never yet failed to make a perfect cure of all private, secret and venereal diseases, without the use of mercury, without hindrance from business, and without fear of discovery or exposure. No deadly poisons, such as arsenic, nux vomica, opium, or any other poisons. No mercury or other deadly minerals—nothing but purely Vegetable Botanic Remedies are used by him. His Remedies cure the most obstinate and dangerous cases, and remove all mercury and other impurities from the system, when all others have failed. His remedies restore manhood and vigor to the impotent, make the barren fruitful, give confidence to the desponding, and they enable the single to get married with the assurance of having a contented wife and healthy children.—*Medical Journal.*

GOOD NEWS FOR THE LADIES.—Ladies whose delicate health makes it necessary for them not to have children, can, with perfect confidence and safety, use DR. RAPHAEL'S Remedy. His preventive is innocent and safe. It does not interfere with diet or occupation. It operates without sickness or exposure, and is certain in its effect. It not only prevents from having children, but it will restore the monthly periods and improve the health. For those ladies who have been seduced or otherwise injured, and whose misfortunes have brought on premature old age, which keeps them from getting married, he has Remedies which cure the injury so that no one can know it, restore the bloom and vigor of youth, remove all traces of their misfortune, and enable them to enter married life with confidence of health and happiness.—*Journal of Health.*

Let no young person, whether male or female, enter the sacred obligations of married life without first consulting him.

All who have suffered from the secret follies and bad habits of youth, should consult him, and be thoroughly and permanently cured. Let those who are afflicted visit him and be restored to perfect health. His system of treatment and his astonishing success entitle him to the fullest confidence.—*Journal of Health.*

His hours for seeing visitors are from 10 a. m. to 4 p. m. daily (Sundays excepted), at 213 East Madison street (up stairs), between Wells and Franklin streets, Chicago, Illinois. Consultation fee two dollars. He has private consultation rooms for ladies and gentlemen. Each visitor has a separate room, arranged so that the most delicate, refined and sensitive may visit the Doctor confidentially, without being seen by any other visitor.

PERSONS AT A DISTANCE may communicate CONFIDENTIALLY by letter, if they enclose two dollars for Consultation Fee in each letter. All letters, communications and interviews are strictly private and confidential. No answer will be given to letters unless two dollars are enclosed as Consultation Fee. By enclosing four 3 cent stamps, DR. RAPHAEL'S GUIDE TO HEALTH AND LONG LIFE will be sent to all who are in delicate health, and whose infirmities and impotence prevent them from getting married. One for the Ladies, and one for the Gentlemen—say which you want, or send six 3 cent stamps for the two books. His Circular about getting Rich and Eminent, winning the affections of the opposite sex, ending with a speedy and happy marriage, will be sent gratis at the same time.

Address all letters as follows:

DR. RAPHAEL,

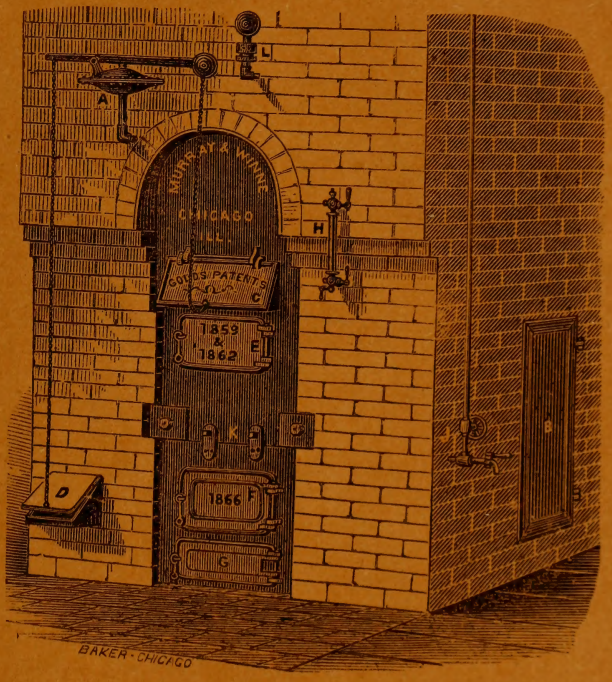
HOUSEHOLD COMFORT.

UNION STEAM AND WATER

HEATING APPARATUS



FOR WARMING AND VENTILATING

Private Residences and Public Buildings.

MURRAY & WINNE,

No. 114 Dearborn Street,

CHICAGO, - - ILLINOIS.

Republican Print, Chicago.

THE

UNION STEAM AND WATER

HEATING APPARATUS

Has been brought to such a state of perfection, that we can confidently recommend it to all who desire to have the PURE out-of-door AIR brought into their *apartments* (whether in dwelling-houses or public buildings,) warmed sufficiently for the coldest weather, without being injured by contact with intensely heated surface. We use *no pipes* or coils requiring steam at high pressure, but by a combination of the two modes of heating (hot water and steam,) secure the best qualities of each.

The entire apparatus is located in the basement or cellar, where fresh, pure air from outside is warmed, and thence conveyed into the different apartments, and is adapted for use in

DWELLINGS,

as it is perfectly safe, easily taken care of, economical in the use of fuel, and so cleanly as to be the greatest desideratum for a well regulated household.

CHURCHES

are warmed in a short time, and kept comfortable all day with one half the coal it will take with a hot air furnace, giving a fresh invigorating atmosphere all the time, without smoke, or danger of setting the house on fire.

IN SCHOOLHOUSES AND INSTITUTES

It is considered, wherever used, to be a positive necessity to the *health* and *comfort* of the occupants, the rooms being always evenly warmed with pleasant, healthful, summer-like atmosphere, as attested by many school officers and teachers of experience.

IN STORES

There can be no chance for smoke or soot to rise from the fire into the room to soil the goods, and the occupants are insured against the headache and sickening faintness caused by furnaces and steam coils in the rooms.

PUBLIC BUILDINGS AND HALLS

will find, in using this mode of heating, that it entirely does away with the objection that keeps many from attending—*a stifling foul air to breathe while sitting through the exercises.* The copious flow of FRESH WARM AIR into the room effectually drives out the tainted breath of the audience, leaving all to enjoy themselves in healthful comfort.

REFERENCES FOR

UNION STEAM AND WATER HEATING APPARATUS.

Certificate of E. B. McCagg, Esq.

CHICAGO, February, 27, 1866.

Messrs. MURRAY & WINNE, of this city, removed from my residence an ordinary Hot Air Furnace, and replaced it with their Union Steam Heating Apparatus, which I have had in use two winters. It has given me unqualified satisfaction in every respect, and is not equalled by any Heater that I have ever examined, in these two most important points—quality of air, and abundant and direct ventilation.

E. B. McCAGG.

Testimonial from George R. Whitman, Esq., of the firm of Bowen, Whitman & Winslow.

CHICAGO, March 30, 1866.

Messrs. MURRAY & WINNE,—*Gentlemen:*—I have used your Steam Heating Apparatus for warming my house, during the past severe winter, with unqualified satisfaction. It is perfectly safe, easily managed, and not extravagant in the consumption of fuel, and affords a soft, pleasant and agreeable atmosphere. I consider it superior to any other mode I have ever seen for warming and ventilating.

Yours respectfully,
GEO. R. WHITMAN.

Testimonial of Perry H. Smith, Esq., Vice-President North-Western Railway Company.

CHICAGO & NORTH-WESTERN RAILWAY CO.
President's Office, CHICAGO. Feb. 23, 1865.

Messrs. MURRAY & WINNE,—*Gentlemen:*—The Union Steam Heater which you put in my house I regard the best invention for warming houses in use. I cheerfully recommend it to others, expressing the opinion that no one will regret the expense of procuring one when he experiences the comfort and economy which it ensures.

Repectfully yours,
P. H. SMITH.

W. F. Coolbaugh, Esq., President of the Union National Bank, gives his experience with our Apparatus, thus:

Messrs. MURRAY & WINNE,—*Gentlemen:*—After a winter's trial of your Steam Heating Apparatus, I am pleased to say that it has worked very satisfactorily, affording an ample supply of warm air, pure and healthful, and free from all smell of coal-gas and other impurities. It seems to be easily managed, and from the character of the work and materials used, must be very durable, and I regard it the best mode of heating with which I am acquainted.

Yours truly,
W. F. COOLBAUGH,
No. 6 Park Row.

Certificate of N. S. Bouton, Esq., a practical and experienced man, one of the Proprietors of the "Union Foundry Works."

CHICAGO, March 30, 1866.

Messrs. MURRAY & WINNE,—*Gents:*—Having now thoroughly tested your Steam Heating Apparatus through two winters, I cheerfully testify to its merits. Since the changes in my chimney so as to give a good draught, the Apparatus has worked, in all respects, entirely satisfactory. The house has been well warmed throughout. I find it also economical of fuel, using only about eight (8) tons of hard coal through the season. It is easily tended, less trouble than an ordinary furnace, and the fire did not go out from October till March.

Truly yours,
N. S. BOUTON.

(Editorial Notice.)

The large establishment in this city, known as the "Coan & Ten Broeke Carriage Manufacturing Company," takes high rank, and justly so, among the manufacturing institutions of the West. The busy hum of industry which pervades the establishment throughout, is music to the ears of every lover of industry, and the completeness of its surroundings is a theme of general admiration throughout the city. The street cars which are manufactured here are unequalled for beauty, excellence and durability; and their express wagons, and family carriages, and top and open buggies cannot be excelled in any of the great manufacturing establishments of the east. It is now a chartered institution, presided over by Douglas W. Coan, and Charles O. Ten Broeke is the efficient secretary. Under the auspices of these gentlemen, and the stockholders, who all take a deep interest in everything that pertains to its workings, it will certainly increase its usefulness, and become one of the leading manufacturing companies of the Union. The time was when it was necessary for our citizens to send East for articles in this line of business. But this time has gone by, and now Chicago competes successfully with any city in the world in her manufacturing institutions. Success to the Coan & Ten Broeke Carriage Manufacturing Co.

Our new Patent Cushions, which were introduced to the billiard playing public in 1866, at once attracted the attention of the best judges, and were pronounced by them to be the quickest and most reliable cushions yet invented, combining power and correctness, unequaled by any other cushion in use.

☞ **SHOP RIGHTS for the same can be had for the State of Illinois, at 44 Adams St.**

(Editorial Notice.)

It is with pleasure that we call the attention of the numerous readers of the Directory to the advertisement of the well-known "Novelty Carriage Works," an establishment second to no other in the world. The work which is turned out from this manufactory is deserving of all the praise which can possibly be bestowed upon it. None but the best quality of timber is used in the construction of vehicles, and work men the most skillful in the business are employed, and none other. There is no necessity of going east for articles in the above line, so long as establishments of this kind are located in Chicago; and further, the prices are as low, if not lower, than the same quality of work can be bought in any other locality. We invite particular attention to "GRANT'S SHIFTING BUGGY TOP RAIL," which is *sine qua non* in the way of excellence and convenience to every buggy. It only requires to be tested to become universal in its use. Go to the Novelty Carriage Works by all means, and patronize home manufactures and home institutions.

A

CITY HOTEL,

CHICAGO, ILL.

The undersigned hav'ng leased the above Hotel for a term of years, announces that it is now open and ready for the reception of guests. The House has been

Furnished Throughout with New and Costly Materials,

The subscriber assures the public generally that he has spared no expense in fitting up this House in such a manner as cannot fail to conduce to the comfort and happiness of the guests; and in so doing hopes, by strict attention to the wants of the establishment, to merit a share of the liberal patronage which this House has hitherto received.

L. H. AINSWORTH.

(Editorial Notice.)

Since the above Hotel passed into the hands of the present popular proprietor, it has not only maintained its former high reputation with the traveling public, but has increased in everything appertaining to the wants of those who make use of hotel accommodations. Located in the vicinity of the largest railroad depots in the West, and in close proximity to the wholesale houses in the city, it presents excellent advantages to the traveler and business man. Its rooms are airy and convenient, with all the modern improvements which induce so much to the comfort of guests, and its clerks, waiters, and porters, accommodating and obliging. The City Hotel passed into the hands of MR. AINSWORTH on the 9th of April last, and from that time has rapidly grown in favor with the public, a fact which speaks volumes in favor of its present management. We commend the City Hotel to everbody who wants to enjoy the comforts of a good table, and the attention of a genial and popular host.

HOMES IN ILLINOIS.

900,000 ACRES

OF THE

FINEST FARMING LANDS

EQUAL TO ANY IN THE WORLD,

FOR SALE BY THE

ILLINOIS CENTRAL RAILROAD CO.,

In Tracts of 40, 80, 160, 320, 640 Acres or more.

The inducements to settlers on these lands are such as to enable the person of small means to secure for himself and family a HOME of their own, and the well-to-do to make a most profitable investment. They are located along the line of the Company's Railway, and are all adapted to the varied productions of the temperate zone, and from their rich, deep soil yield with less labor, and in much greater abundance, all the crops of New England and the Middle States. Machinery for planting, cultivating and harvestinghere does the work of many hands. Grain is shipped in bulk from all stations, thus saving the trouble and expense of bagging. The best markets of the world are always open for their produce, and the transit quick, cheap and direct—in summer, to Chicago and the great lakes, East; in winter, to Cairo and by the Mississippi River, South. The climate is genial and healthy, the taxes are low, and churches and schools of all grades (the latter supported by a public fund), abound along the whole line. The title to these lands is clear, and in fee-simple from the State. For full information on all points, together with maps showing the exact locality of all lands, sold or unsold, address or call on
